

Solution 260IRTU

SILICONE FREE WELDING ANTI-SPATTER

| **Environmentally Safe: this product is 100% Biodegradable**

| **Prevents Slug and Metal Spatters from Adhering**

| **Good Film-Forming**

| **Easy to Clean With Plain Water**

Solution 260I is a revolutionary formulated silicone free product which gives protection to any surfaces that are being welded. **Solution 260I** forms a thin film on any surface. By being non-combustible, non-migratory, and non-toxic it makes welding easier by eliminating spatter cleaning and removing problems. It will prevent slug and metal spatters from sticking on all weld surfaces during single and multi-pass welding operations. **Solution 260I** can be applied by roll, brush, or spray, depending on the use and needed applications. **Solution 260I** is safe on all metal surfaces including painted and most plastics. It can easily be cleaned with running cold water over the part to remove the film. **Solution 260I** will give superior protection to MIG gun nozzles, all welding contact tips, and accessory welding equipment.

PHYSICAL & CHEMICAL PROPERTIES:

Physical State:	Viscous liquid
Specific Gravity	1.01-1.02 Water = 1
Water Solubility	Complete
pH:	9 - 11 undiluted

MATERIAL SAFETY:

Solution 260I is safe on all metal surfaces including painted and most plastics.

USING PROCEDURES

Solution 260I is recommended to be used as received.

STORAGE

Solution 260I should be stored in a cool dry place. If accidentally frozen, thaw and roll drum to remix.
